

LOCAL AND GENERAL NEWS BRIEFS.

Mrs. Sallie McCulla left, Wednesday, to visit in Nebraska.

Judge S. C. Graham was called to Roanoke on business, Tuesday.

Mr. W. I. Boone, of the Republic, is on a visit in Henry county.

Mrs. and Miss Keebler, of Bristol, are visiting Mrs. A. D. W. Walton.

Miss Sallie Surface is at home again after a visit to relatives at Bluefield.

Miss Lucie Wilson has returned from a visit to her father's family in Pulaski.

Prof. and Mrs. J. A. Leslie left Wednesday for Chicago and the World's Fair.

Prof. Burleson, a newly elected professor in Tazewell College, is here with his recently wedded wife.

Messrs. Alderson and Jos. Stras had a little luck with the black bass at Maxwell, Wednesday evening.

The death of Major W. T. Sutherland, of Danville, removes a prominent figure from Virginia business and political circles.

The very hottest weather of the season has been that of this week when the thermometer found its way into the nineties.

Mr. V. L. Sexton has his law office on the first floor of the Norfolk House and seems entirely settled for the prosecution of his work.

Mr. C. N. Winner, of the Norfolk and Western Railroad Co. was in town yesterday. He contemplates the collection of matter for a book of the Virginia counties through which the road runs.

The Bluefield Urchins played the Tazewell Kids a game of base ball on the grounds of the latter the day before yesterday. The report of the game gave the home team the victory by a score of 17 to 8.

The Tazewell College catalogue for 1892-3 shows an enrollment in all departments of 154, which for a two year old institution is a very favorable showing. The next session will begin Tuesday, Sept. 12th.

Major R. R. Henry and Mr. W. G. Harrison, after their exchange of properties some days since, have moved into their respective new homes, Major Henry's in the east end and Mr. Harrison's at "Brandon."

At a meeting of the board of directors of The Clinch Valley Bank, Tuesday, Mr. H. P. Brittain was elected assistant cashier to succeed Mr. A. D. W. Walton who will resign in a few days to go to Richmond.

Ayer's Pills promptly removes the causes of sick and nervous headaches. These Pills speedily correct irregularities of the stomach, liver and bowels, and are the mildest and most reliable cathartic in use. No one should be without them.

Comparing itself with other towns by way of population, Tazewell has more of a building boom than any of its neighbors. In fact there is more work in course of erection now than there was in "boom" times. Yet other buildings are to be begun during the season.

The Democratic county convention will be held in the Court House tomorrow afternoon. It is generally understood that a majority of the county favor Major Tyler for Governor and, provided the convention is an average one, he will therefore secure the delegation. O'Ferrall's friends could of course muster enough men to secure a division.

H. P. WILLIAMS,
County Superintendent.

Miss Marie Garnett, daughter of Mrs. W. J. Shelburne, is visiting her mother here.

Rev. Mr. McFadden has been spending some days with his friend, Rev. Mr. Herndon.

Mrs. L. R. Dodd is visiting her old home in Carroll county where one of her sisters lives very ill.

The use of Tobacco or Opium can be positively cured by Hill's Chloride of Gold Tablets. As your drug gist for them.

The decrease in cost of transportation seems to be about to precipitate a movement upon the World's Fair from the Southwest.

Miss Edna Woolwine, who spent many of her school days at Tazewell, is visiting her sisters, Mrs. Hargrave and Mrs. Pearce.

Late canvassing on the part of representatives of various institutions, develops the fact that Tazewell will furnish more than her usual quota of college students for the coming year.

Mr. and Mrs. Joseph Stras and the children came from Salem first of the week, and are at the home of Mrs. Hester Spotts, Mrs. Stras' mother. This having been the first home of all of them, they are decidedly among old friends.

Near Welch, on the Ohio extension, the other day, a freight train ran into the rear of a passenger train. Those passengers remaining in the sleeper were uninjured, but in jumping out Prof. James H. Fitts, of Blacksburg College, was thrown under the wreckage and killed.

At a meeting of the Board of Supervisors of the county final action was taken toward the improvement of the county jail. In the way of improving the building, placing new cages, drainage, &c., the sum of about \$5,000 was appropriated. Work will begin at an early date.

"Be sure you get Ayer's" is an important caution to all in search of a thoroughly reliable blood purifier, Ayer's Sarsaparilla being the one on which there can be no manner of doubt. It has stood the test of nearly half a century, and has long been considered the standard.

We call special attention to the advertisement in our columns of the Medical College of Virginia. This old, efficient and honored institution is about entering on its fifty-sixth session, and we urge upon our young men who purpose studying for the profession to patronize this home institution, whose professors and other instructors are selected from the best practitioners in this and other States.

VIRGINIA.
The last edition of the Hand Book of Virginia is out and is a much more voluminous volume than heretofore. It contains nearly 350 pages touching the history, climate, mineral wealth, educational, agricultural and industrial advantages of the State. Provided for by law, it is published by Commissioner of Agriculture Thomas Whitehead. It treats the counties in detail, giving something more than the mere census returns. Its thorough distribution would doubtless be to the State's interest.

GOOD BLOOD.
Among the horses which Dr. O'Keefe now owns in his stables, we notice the pedigrees of several, as:

VANCE ON SILVER.

HIS REMARKABLY STRONG LETTER TO THE ALLIANCE.

ASHEVILLE, N. C. July 22.—Senator Vance has written the following letter, which is published today:

GOMERON, NEAR BLACK MOUNTAIN, N. C. July 22, 1893.

R. W. Elliot, Esq., Secretary Mecklenburg County Alliance.

Sir—I have received a copy of the resolution of Mecklenburg Alliance, adopted at a recent meeting, urging Senators and Representatives to stand by the present silver purchasing law until some satisfactory substitute shall be adopted.

I observe this action with great pleasure for two reasons: In the first place, it is the exercise of one of the most valuable and legitimate functions by which the alliance can be made to subserve the interest of the farmers—the concentration of their whole influence upon the issues of the day. In view of the notorious fact of combinations among the other branches of industry and in every form of capital, I years ago urged upon our agricultural classes the importance of such organizations as would enable them to make their vast but widely scattered and disjointed strength felt promptly and efficiently in legislation. Now, the preservation of silver as a part of our currency is one of the most vital of all the issues which our people have been called upon to decide for half a century.

WONDERFUL SAGACITY.

The enemies of silver money have displayed wonderful sagacity in their tactics. Though scattered throughout the civilized world they have obeyed a single voice from headquarters in London. From New York the word comes down the line to all American capital and the response is immediate. What is known as the Sherman law is the only legislation on our statute books which binds us to the use of silver, and the cry is raised for its repeal under various pretences, all equally false. The bands, stockbrokers, bondholders, chambers of commerce & id omne genus for its repeal and urge the calling of an extra session of Congress to assemble and sit during the dog days for that purpose alone. Tariff repeal, which formed the chief issue of the past campaign, is thrust to the rear and the interest of capital is placed in front to be dealt with under the demoralizing condition of a fraudulent panic created by capital itself and called by Mr. Ingersoll "the banker's panic."

FIRST ALLIANCE UTTERANCES.

Under these alarming circumstances I have listened, and mostly in vain, for the voice of the Farmer's Alliance sounding their opinions and wishes and of those they represent, composing fully one half of the nation, giving the feeble and vacillating among politicians to understand what they had to expect if they betrayed the people's cause on this great financial question. The action of your alliance is the first official utterance on the subject I have seen in the State. It was time your order was bringing every atom of its influence to bear. It should use every means possible to let it be known that there is yet another and entirely different world in the fields and homes of toil, whose interests demand attention as well as that combination of moneydealers, stockbrokers, gamblers and speculators, who assume for themselves to constitute the "business interests" of the land. The effect of this prompt and united action cannot possibly be doubted.

CONCURRED WITH HIS OWN.

In the next place I was glad to read the resolution of your alliance, because they concurred with my own most serious convictions. Many years ago, after as thorough and impartial examination of the question as I was capable of making, I came to the absolute conclusion that the use of silver as well as gold, on equal terms, as the basis of our currency was best for the welfare of the people of the United States. This view has governed my course in Congress. The fact that nature sometimes yielded more of one metal than of the other, thus causing a discrepancy in their intrinsic values, did not disturb me, for I learned from history that for nearly three hundred years, during which a ratio between the two metals was fixed by laws, the fluctuations in intrinsic value had never exceeded 34 per cent., and that soon after that law was withdrawn great and material fluctuations immediately began, which will doubtless continue so long as we treat one metal as of fixed and standard value and the other as a commodity. It is not necessary to go over all the grounds in which my conviction was founded. I simply wish to assure you that my opinions are unchanged.

Recent developments, which seem to have unsettled so many silver advocates and make them give way to the repeal of the Sherman law, has rather strengthened me in the determination to yield nothing to the monetarists, whose scheme I regard as absolutely selfish and unpatriotic.

RICH MAN'S PANIC.

The "panic," so industriously advertised, is known now to have been created by them and will be known hereafter as the rich man's panic. The explosion of the Indian bubble is already discounted as the grasping by

the government of the profits of coining silver rupees, which heretofore had been reaped by British merchants. The coining will go on as largely as ever only the Indian government will pocket the 40 per cent. gain and not the merchants. England does not dare to demonetize silver in India, which alone makes her demonetize it at home. There is not spare gold enough in the world to replace the \$900,000,000 of silver in that country. The attempt to do so would bankrupt half of Christendom and England well knows it. The suggestion is mere bluff and can only disturb a politician who holds a very weak hand. Nor have the allegations so distressingly slanted that the Sherman law was causing our gold to leave the country had any effect on me.

KNOW THEM TO BE FALSE.

From the beginning I knew them to be false. Gold went out because we owed it abroad and the balance of trade was against us. Shipments of wheat have turned the tide and it is now coming in. Some of our securities did come home and take off gold in payment, but this hurt no body except speculators in them, who were fearful that the price would fall and they would lose money. But even those which did come from abroad came in consequence of the scare got up by our own capitalists. Of course foreigners believed the stories of the ruin and bankruptcy if the Sherman law was not repealed, which our own people told them.

Finally, I hope it is unnecessary for me to say that the hope of ingratiating myself with the administration in order to secure patronage at its hands has in no sense affected my opinion of right in the premises. How far such a motive may operate in the repeal of that law I have no means of knowing. I believe, however, it will not go a great way. But let things go as they may, it shall be my earnest endeavor to do my duty in maintaining the cause of the people by preserving the character of their money and increasing its abundance. Very truly yours,

Z. B. VANCE.

IMPORTANT DECISION.

Judge Paul, the District Judge of this District, has just rendered an important decision in a cause in equity in the Circuit Court submitted to him in chambers. It is the cause, or rather causes, of the Central Trust Company, of New York, vs. the South Atlantic and Ohio Railroad Company, and the Virginia, Tennessee and Carolina Steel and Iron Company vs. the Bristol Land Company. These causes are closely related to the cause of the Central Trust Company of New York vs. the Virginia, Tennessee and Carolina Steel and Iron Company, which was dismissed at the last term of the United States Circuit Court at Abingdon, for want of jurisdiction, neither of the parties being a citizen of this State.

The litigation in these causes has been long and vexatious. In 1890 Judge Bolen, sitting for Judge Kelly, in the latter's disability from sickness, entered an order in the Circuit Court of Washington county appointing John M. Bailey receiver for the defendant companies, but soon after Judge Kelly entered an order restraining Bailey, receiver, from taking possession until the further order of the court. Then Judge Richardson, of the Court of Appeals, made an order appointing Bailey receiver, but an appeal was taken from this order and the Appellate Court overruled Judge Richardson's order. Then the causes were removed from the State Court into the United States Circuit Court, but upon the trial of the question of jurisdiction, Chief Justice Fuller sitting as Circuit Justice, dismissed them. New suits were then commenced in the United States Circuit Court before Judge Bond, and he appointed John C. Hasken and D. H. Conklin receivers, and they took charge of the railroad and other property of the defendant companies. Thereupon Wm. M. George, Jr., and other stockholders and creditors filed a petition of intervention, in which they alleged, among other things, the prior jurisdiction which had been acquired by the State Court. Upon this point Judge Paul decided in favor of the interveners, dismissed the suit and discharged the receivers.

The causes now go back to the Circuit Court of Washington county.

"For Years,"

Says LAUREN E. STOCKWELL, of Chesterfield, N. H., "I was afflicted with an extremely severe pain in the lower part of the chest. The feeling was as if a ton weight was laid on a spot the size of my hand. During the attacks, the perspiration would stand in drops on my face, and it was agony for me to make sufficient effort to wipe perspiration from my forehead. They came suddenly, at any hour of the day or night, lasting from thirty minutes to half a day, leaving as suddenly; but, for several days after, I was quite prostrated and sore. Sometimes the attacks were almost daily, then less frequent. After about four years of this suffering, I was taken down with bilious typhoid fever, and when I began to recover, I had the worst attack of my trouble I ever experienced. At the first of the fever, my mother gave me Ayer's Pills, my doctor recommending them as being better than anything he could prepare. I continued taking these Pills, and so great was the benefit derived that during nearly thirty years I have had but one attack of my former trouble, which yielded readily to the same remedy."

WORLD'S FAIR NOTES.

A FEW POINTERS ABOUT CHICAGO.

An great many of the readers of this News will make their first trip to Chicago during the World's Fair, a few pointers regarding the geography of the city will be appreciated. In the first place, fix Ripans in your mind the fact that Lake Michigan forms the eastern boundary of the entire city, and if you stand facing the lake with both arms outstretched, the left hand will point to the North Pole and the right hand will point straight down the track of the U. S. FOUR ROUTE to the World's Fair building, situated at the southern end of the city. Paste this on your hat and you have the key to the entire situation. Coming into Chicago on trains of the Big Four Route, which is the only railroad having an entrance on the south side along the lake front, where all the hotels and boarding houses are located, you will find your way to the Exposition grounds and a magnificent panoramic view of the Fair is obtained.

At the World's Fair Station of the Big Four Route, if you step off at the right side, you are at the entrance gate to the Exposition and can go "doing" the Fair at once; if you step off on the left side, you will find yourself in the finest residence portion of Chicago, and right in the midst of the World's Fair hotel and boarding house district. The chances are ten to one you will be within a few minutes walk of the place you have selected for your headquarters.

If you prefer to go down town, ten minutes ride will bring you to the new Twelfth Street Station in the heart of the city. Now bear in mind the manifest advantage of entering Chicago on the Big Four Route. It is the first place you avoid entirely the bother and trouble of a tedious transfer across the city, which is necessary via all other lines, being landed directly at the Exposition grounds, an advantage offered by no other line; and in the second place you can so fix your geography of the city in your mind that you will at once become as familiar with Chicago as you are with your own town.

Another point in favor of the Big Four Route is found in the fact that if you enter Cincinnati on the Queen & Crescent Route, Louisville & Nashville R. R., Kentucky Central Ry., Chesapeake & Ohio Ry., or Baltimore & Ohio S. W. R. R., connection is made in Union Depot, avoiding the disagreeable transfer necessary via all other lines.
